EDUCATION

Computer Science Engineering

Polytechnic University of Valencia

Sep 2018 - Jul 2022

EXPERIENCE

Software Developer Technical Lead

Capgemini

May 2024 - Present

Experience as a Technical Lead and Software Architect in internal projects with stacks based on React and Spring Boot, orchestrated within a Kubernetes infrastructure and integrating services such as Keycloak, S3 and Mapbox. I led the design of both the code architecture and the infrastructure, leveraging tools and frameworks like C4 models. My responsibilities included overseeing the development process, ensuring adherence to architectural standards. This covered the design and implementation of architectural patterns for both frontend and backend components.

Mar 2023 - Mar 2026

Full Stack Developer

Capgemini

Nov 2022 - May 2024

While working for French projects I served as a Full Stack Developer, actively involved in both frontend and backend development using Flutter and Spring Boot technologies. Additionally, I played a pivotal role in architecting application's infrastructure. I took on operational tasks, particularly in deploying the backend. This comprehensive engagement allowed me to contribute across project's spectrum, from development to infrastructure management.

EXPERIENCE

Software Developer

Capgemini

Apr 2022 - Oct 2022

I worked on a microservices project using Spring Boot, employing the service registry pattern with Eureka and OpenFeign. During a phase, I led the backend team, stepping in for the formal project leader. Additionally, I conducted code reviews and mentored junior developers, maintaining high code quality and fostering a productive team environment.

Software Engineer Intern

Capgemini

Feb 2022 - Mar 2022

During my internship I worked on internal projects using Flutter technology, collaborated with cross-functional teams. Also, I participated in code reviews and provided constructive feedback to team members. Engaged in continuous learning and improvement to stay updated with the latest trends and advancements in multiple frameworks.

Software Engineer Intern

Dialapplet

Jul 2021 - Oct 2021

As an intern software developer in Dialapplet I made an investigation about used technologies in the Call Center field. Also, I was in charge of the development of tasks related to development and maintenance of software made in C++ language with PostgreSQL database.
