Technical Skills

Backend

Java, Spring Boot, Python, FastAPI, Django, REST APIs, Microservices

Frontend

React, Angular, TypeScript, JavaScript, Flutter

Cloud and Delivery

AWS, Kubernetes, Docker, ArgoCD, CI/CD, Google Cloud Platform, OVH Cloud

Data and Messaging

PostgreSQL, Oracle DB, Apache Kafka, RabbitMQ, Event-Driven Architecture

Security and Development Tools

Keycloak, OAuth2, OpenID Connect, GitHub Copilot, OpenCode

Professional Experience

Sopra Steria

May 2025 - Oct 2026

Software Engineer

- Developed and maintained microservices for financial operations within sports betting platforms using Java and Spring Boot, with Python/FastAPI for selected services.
- Implemented service messaging with Apache Kafka and RabbitMQ and contributed to frontend development with Angular and React.
- Worked on continuous delivery with ArgoCD and Kubernetes, automated testing and peer code reviews in an agile team.
- Used AI coding assistants for legacy code analysis, implementation, testing and documentation.

Sopra Steria

Altia

Oct 2024 - Apr 2025

Software Engineer

- Developed and maintained distributed microservices for the European Patent Office (EPO) using Java and Spring Boot.
- Worked with Apache Kafka in event-driven architectures and Kubernetes deployments, collaborating across multiple teams.
- Used Python to analyse API models supporting data analysis workflows.

Altia

Professional Experience Continued

Capgemini

Feb 2022 - Oct 2024

Full Stack Developer

- Developed Java/Spring Boot microservices and REST APIs for an Arval insurance project, using Eureka and OpenFeign for service integrations.
- Developed Flutter projects for Santé publique France.
- Coordinated the backend team, reviewed code and mentored junior developers.
- Designed and deployed Kubernetes-based architectures across AWS, Google Cloud and OVH, including operational tasks.
- Integrated Keycloak for identity and access management and S3 for storage.
- Built frontend applications with React and Angular, and internal project websites with Python and Django.

Capgemini

Dialapplet

Jul 2021 - Oct 2021

Software Developer Intern

- Developed and maintained C++ applications for call centre solutions on Linux with PostgreSQL databases.
- Contributed to a Python library integrating AWS services, including Amazon Lex.
